OVERVIEW OF THE INITIATIVE FOR INTERNSHIP

CONCEPT OF IWDC-22

International Women's Day is celebrated annually on 8th March. It offers an opportunity to reflect on progress made, to call for change and to celebrate acts of courage and determination by ordinary women who have played an extraordinary role in the history of their countries and communities. In the light of current year March 2021 IWDC -2021 a group of likeminded women leaders from +17 countries participated and observed that women are the leaders all over the world in almost every field of life. They lead business processes for economic development, running businesses, establishing business venture as successful entrepreneurs, building communities, leading nations, serving on front desks in hospitals and schools. They are presidents of countries and corporate boards. They are promoting peace, heading international organizations for saving and promoting grassroots organizations, participating at larger scale in Agriculture, enhancing their presence in sports teams, labour and environmental movements, often while caring for their families and communities.

CONCEPT OF IWDC-22

- March 2021 International Women's Day conference a week long celebration, we celebrate all women, and particularly those leading the change for women empowerment and equality. We encouraged all women leaders with their initiatives, ideas, proposals and suggestions for girls and women who dream of leadership to take it up. Conference was based on Do not wait. It is your right, and the world needs you now more than ever through 12 points charter of demands at the closing of the conference.

CONCEPT OF IWDC-22

- March 2022 IWDC-22 we believe that women, collectively, will change our world for the better tomorrow. Where there is gender equality, societies are more prosperous. Peace is more durable. Economic conditions will be more powerful, Education will be access able for all, good health will the priority of all families and nations, networking and partnership will the backbone of every initiative and societies will get benefits collectively.

CONCEPT OF IWDC-22

- Although many obstacles still block women's path to leadership. One of the most fundamental is the lack of awareness about the women rights. Many women cannot make basic decisions about their work, families, communities as well as no access to share their will and opinion as citizens or like men, such as lack of civic education and lack or their own rights, or even make their own health-care choices.

CONCEPT OF IWDC-22

- In IWDC-22 major objective of the week long virtual conference dated 04th March to 08th March 2022 No woman should be left or denies these choices. Choices to know, Choices to learn, choices to implement, choices to accelerate, choices of invest and finally choose a better life by building stronger families, communities and nations. We are here to work as showcase for these women and highlighting them as shining leaders through this **GLOBAL PLATFORM** in which we are hoping for +50 countries as women leaders and best representative of their countries.
